Initial Seeing Stars Program Workshop Lindamood-Bell

Description: This 2-day online, interactive workshop will provide participants with instruction in the steps of the Seeing Stars program, student-instructor videos, guided practice sessions, and materials for support after the workshop. Participants will learn steps to develop phonics/phoneme awareness, orthographic awareness, reading fluency, word attack, word recognition, and spelling skills. The Nanci Bell Seeing Stars program develops symbol imagery: the ability to visualize sounds and letters in worlds for both phonological and orthographic processing.

Date: March 6 & 7, 2023

Time(s): 8:00am-4:00pm

Location: Online

Basic requirements include a computer equipped with a stable internet connection, web camera, speakers, and microphone. Equipment may be tested at zoom.us/test

Cost: \$599/participant

*Cost includes the price of the workshop only at group rate pricing and includes a year-long membership to Imagery-Language Connection, Lindamood-Bell's online community, which supports educators with program implementation.

It is the responsibility of the registrant/school district to ensure a program kit is available to the individual for attendance at the workshop. MADSEC is not responsible for purchasing or distributing program kits. A code for 30% off the price of the program kit will be sent to individuals who register through this MADSEC group pricing and who are in need of the Seeing Stars program kit. Kits are purchased through Gander Publishing.
